

I am advised that Sinclair Broadcasting plans to air a one-sided pro Bush film on 62 of its stations primarily in so-called "swing" states just two weeks before election date. This is outright abuse of the public airwaves (unless they also plan to air a pro-Kerry, which I doubt) and apparently quite illegal as well as in very poor taste.

Please do what you have been charged to do by investigating this matter immediately and putting a stop to this atrocious and scofflaw behavior.

God knows we need all the help we can get out here in the real America to teach this perilously anti-Constitutional administration (and following administrations, too, for that matter) that meddling with the provisions of our Constitution is meddling with and weakening the foundation of our great country and our precious freedom from oppression, and WE WON'T STAND FOR IT!
